

Technical Data & Instruction Sheet

PRODUCT BENEFITS

Inorganic Acids based Cleaning Agent

Free of Hydrochloric Acid

No Corrosive Vapors

Low Order

Excellent Cleaning Properties

RECOMMENDED SURFACES

Wall and floor tiles, clinker and brick areas, porcelain stoneware in sanitary facilities, swimming pools, kitchens, car wash buildings, and brick fronts

AVAILABLE SIZES

5 Ltr, 10 Ltrs

COVERAGE

150-200 sq. ft. per ltr, depending on the intensity of Stains

TECHNICAL INFORMATION

Form: Liquid

Specific Gravity: 1.12 g/cm³

Flash Point: NA

Freeze point: 0°C

pH: < 1

Shelf Life: 3 Years approx. if stored in tightly sealed container & cool place

DESCRIPTION

XC2 is used for the easy cleaning and removal of lime and cement films, inorganic soiling and flash rust, also in connection with oily and greasy dirt. Appropriate for the cleaning of acid-resistant substrates.

DIRECTIONS

Read entire label before using. Use only as directed. Always test on a small area with a 24 hours curing to check desired results. Ensure that that area is well ventilated during the application and the surface is dry. Surface temperature should be between 10°C and 35°C.

1. Ensure area is well ventilated during application and surface is dry. Use respirator. Follow respirator manufacturer's instructions for use.
2. Mask any surface not intended to be treated.
3. According to the degree of Soiling, Liberally apply undiluted or with cold water in a ratio 1:20 an even coat using a paint brush. **DO NOT USE SPRAYER**
4. Allow XC2 to penetrate the surface for 15-30 minutes. During this time, spread cleaner over entire area to ensure even penetration. Remove excess cleaner by wiping out entire surface thoroughly with clean and dry towels.
5. 15-30 minutes after entire application, wipe the entire area with scrubber while rinsing with clean water.
6. In case of stubborn stain, use brush or scrubber.
7. Remove the water with vacuum cleaner so as to dry out the surface.
8. If stain is not removed completely, repeat the process second time.
9. Clean tools with water immediately after application and allow them dry in a well ventilated area.

Special Instructions

1. Prepare a sample area to examine material consumption and cleaning efficiency.
2. Do not use on substrates sensitive to acid i.e. non acid resistant tiles, anodizedaluminium, metals like zinc, iron, aluminum etc.
3. Do not use with hot water.

METHOD OF APPLICATION

DO NOT USE POWER SPRAYER. Better results will be obtained using a paint brush, pad or roller. For Larger jobs use pump-up garden sprayer. **USE GLOVES, GOGGLES & RESPIRATORS WHILE APPLYING.**

STORAGE AND HANDLING INSTRUCTIONS

May be harmful if swallowed. May cause skin, eye and respiratory irritation. Do not spray. Avoid prolong exposure to vapors. Use in a well ventilated area. Do not ingest. **KEEP OUT OF THE REACH OF THE CHILDREN.** Do not freeze or store above 40° C. Do not mix with other chemicals.

EMERGENCY/ FIRST AID PROCEDURES

Ingestion: Do not induce vomiting. Call a physician

Eye Contact: Flush thoroughly with water for at least 15 minutes. Remove contact lenses, if applicable, and continue flushing. Call a physician if eye irritation persists.

Skin Contact: Wash skin with mild soap and water. Call a physician if skin irritation persists. Wash clothes before wearing again.

Inhalation: Remove to fresh air. Call a physician if respiratory irritation persists.
