About Welspun

(Sohna, Haryana)

RachTR[®]
WITH CHEMISTRY WE CAN

A global leader in textiles, offers high-quality home textiles & flooring solutions. Their diverse reach and focus on innovation & sustainability set them apart. They aim to be a top brand, prioritizing customer experience and social responsibility.

Challenges

Oil had seeped into the floor deeply

Oil induced floors will always have issues of debonding if not treated correctly

Any flooring will have risk of peeling off

Wrong application +
Wrong products =
Compromised results!

Solution

RachTR[®]
WITH CHEMISTRY WE CAN

We thoroughly cleaned the oil-laden surface and removed the top layer by scarifying the oil-ridden surface.

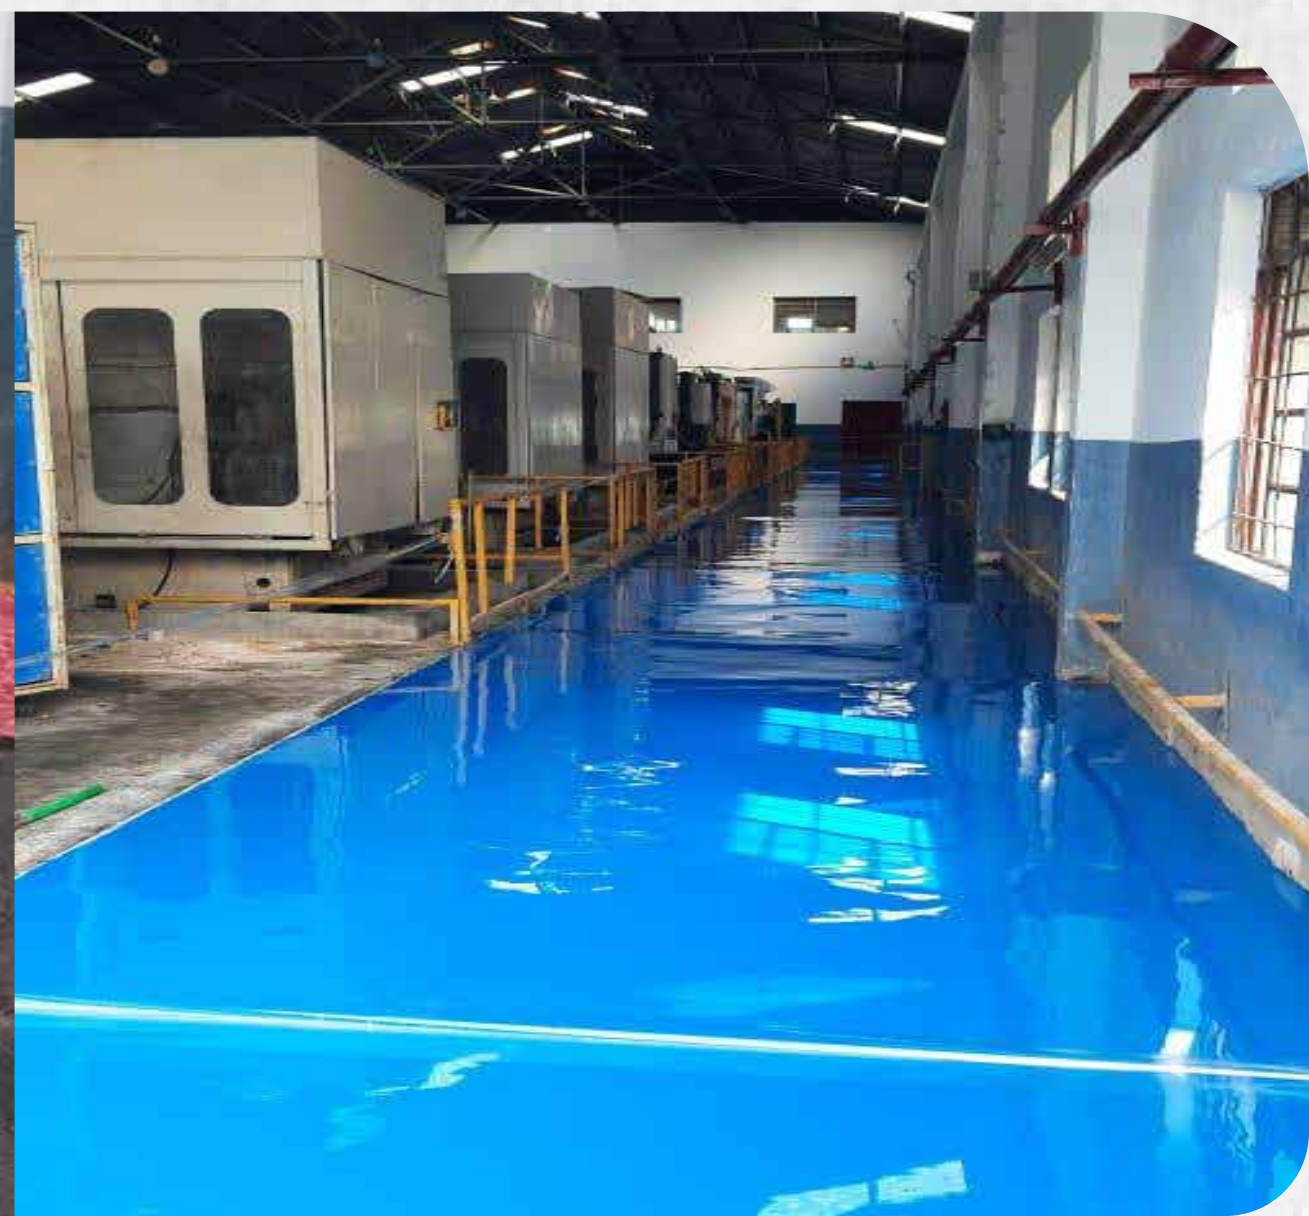

A special cleaning solution applied to tackle any remaining oil traces.

This unique Oil sealer creates a strong bond between the epoxy and the oil-treated concrete.

We applied our high-quality Oil Sealer (To stop penetrated oil from coming to the surface) Primer 402, Screed EP91, and Top Coat 1010N for a beautiful and durable finish.

Oil Sealing

Scarification and oil sealer tackled surface issues while prioritizing safety.

Expert Repair

Damaged areas received high-quality mortar repairs for lasting strength and level the floor.

Multistep Success

Our multistep process ensured long-lasting epoxy flooring results.

Durable Finish & Aesthetic Finish

Screed and top coat application ensure an aesthetically appealing, long-lasting, high-performance floor.

Restored & Reassured

RachTR's comprehensive restoration puts an end to the client's recurring floor issues, providing lasting peace of mind.
